

Please do not stop the do not call registry - it has been a pleasure not to be constantly disturbed with these annoying solitations during the evening hours. My husband and I both work full time and our evenings were constantly intruded by these sales calls. I also have a disability (bad knee) which makes it difficult for me to get to the phone after sitting down. So many times I would painfully get up and get to the phone only to hear a computer or a sales person wanting to sell me something. When I want something - I will do my research and contact the seller!
